2018

Version from October 10, 2018

Abstract

The abstract of a thesis consists of a brief introduction, problem statement, and explains the contribution / main results of your thesis .

==========

ChangeLog:

2018-10-10: Small changes in structure
2018-10-09: Faculty and department name adjusted

Acknowledgment

Acknowledgement goes here. Thanks to Guido de Melo for providing Version 1.0 of this template!

Introduction

The introduction of a thesis usually contains the motivation for the topic, the problem statement (see section 1.1), a description of the contribution / results of the thesis (see section 1.2), and a short description of the structure of the thesis (see section 1.3).

A figure is always referenced in text. See vor example figure 1.1.

Whole chapters are referenced using Chapter 1, subsections using subsection 1.1.

Statement originating from the literature receive a reference at the end of the sentence [1].

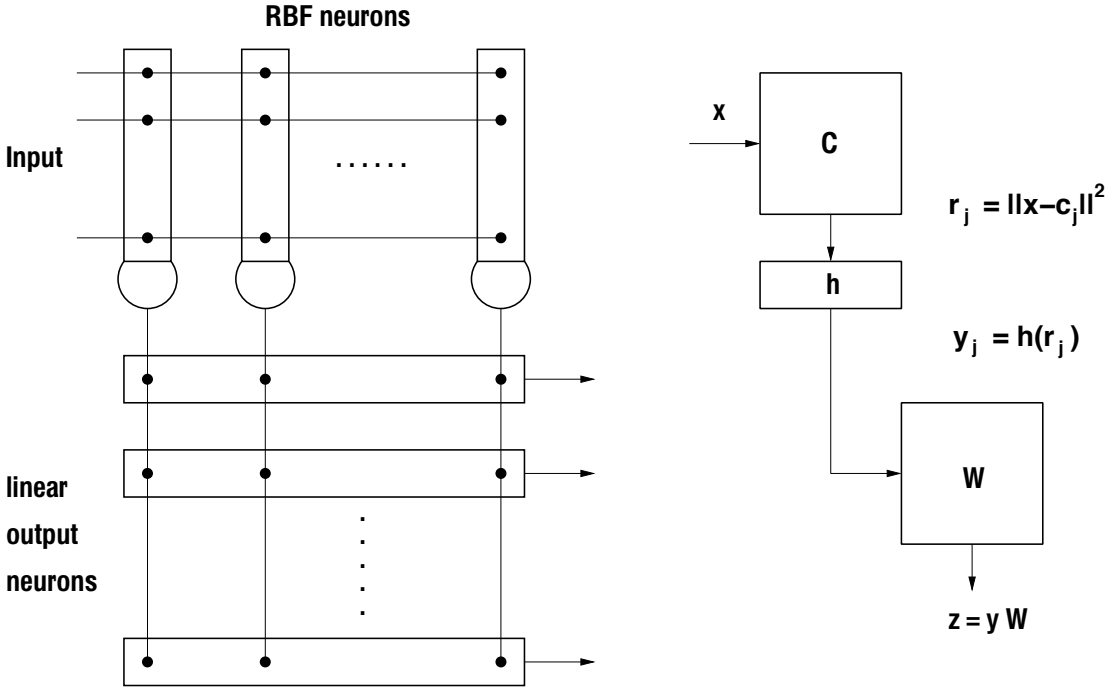

Figure 1.1: A simple two layer radial basis function network

1.1 Problem statement

The problem statement of your thesis goes here!

1.2 Contributions and results

Describe contributions and results here!

1.3 Structure of the thesis

Explain the structure of your thesis here!
